

### **Director of Media and Technology**

Full-time position

Available January 4, 2010

The purpose of this position is to manage and coordinate all ministries related to media and technology, namely Audio/Video/Broadcast, Website, and IT. Candidates should have good understanding and feel for current media and technology. A desire to serve in a ministry format is key. Close interaction with the pastoral staff is required; therefore, a highly-motivated, flexible and enthusiastic spirit is necessary. This position also requires management skills, interpersonal skills and organizational skills. Knowledge of sound and video equipment is necessary. A minimum of a bachelor's degree is required, preferably in the area of media and/or technology. Current projects include: website management and update; computer upgrades and maintenance; TV, radio, and internet broadcasts of services; development of technological software and hardware.

If you are interested in this position, please send a detailed resume to Nathan Stecchi at [nathan.stecchi@mvbc.org](mailto:nathan.stecchi@mvbc.org).
